

Discover the **R₂** DIGITAL LIBRARY

**Health Sciences information is specialized.
Your eBook platform should know that.**

The R2 Digital Library is an eBook database specialized for the health sciences, integrating content from the leading publishers on a single web-based platform. Users search the R2 Digital Library for topics like:

- ✓ Section-specific results from thousands of eBooks from the leading health sciences publishers
- ✓ Extensive image and video library from key resources
- ✓ Filter options to refine result sets to your area of interest
- ✓ Tools to integrate content into your workflow
- ✓ Seamless linkout to primary source material
- ✓ Topic-driven database dynamic to your library's collection

The screenshot shows a search bar with 'MI' entered and a search button. Below the search bar, the results page displays 'Search Results' and 'Jump to page: 1 2 3 4 5'. A callout bubble points to the search bar with the text: 'Looking for MI? The R2 Library knows you mean heart attack, not Michigan.' The search results list several items, including 'M | Section: MYOCARDIAL INFARCTION' from 'THE AHA CLINICAL CARDIAC CONSULT, 3rd, J.V. (Jan) Nixon, MD, Lippincott Williams & Wilkins, 2011', 'Chapter 73 - ST SEGMENT ELEVATION ACUTE MYOCARDIAL INFARCTION AND COMPLICATIONS OF MYOCARDIAL INFARCTION' from 'GOLDMAN'S CECL MEDICINE, 24th; Lee Goldman, MD, Andrew Schafer, MD, Elsevier Health Sciences, 2012', and 'Chapter 4 - Ischemic Heart Disease | Section: ST-Segment Elevation Myocardial Infarction' from 'THE WASHINGTON MANUAL OF MEDICAL THERAPEUTICS, 34th; Hemant Godara, 2012'.

**Your library is vital to the future of healthcare.
The R2 Digital Library will get you there.**

**FREE
30-Day
Trials
Available**

The R2 Digital Library enables you to:

Connect your users with essential health sciences content – on a platform designed to enhance it.

Select Resources at the title level and pay once for life-of-edition access.

Incorporate workflow, integration and collaboration tools designed for the contemporary library.

Explore consortia, patron-driven acquisition and turnkey collection development solutions.
